Volume 32—Number 8 Week of August 19, 1956

In TWO Sections Section TWO

INDEX TO VOLUME 31

January Through June 1956

As you know, items in QUOTE, arranged alphabetically according to subject matter, are regularly assigned an index number. In our semi-annual index, the first numeral in each reference indicates the issue of QUOTE, the second numeral refers to the location of the item within that particular issue, according to its index number. Thus, in the first column of this index, "Ability—9-1;" tells you that an item on Ability will be found in the ninth issue of QUOTE under index number 1.

One or more letters, following an issue number, refers to material in regular departments. For example: "Advertising—2-QC;" indicates that an item on Advertising appears in *Mr Q's Column* in issue number 2. The reference to "Art, Appreciation—11-Wa;" means that an item on that subject appears in the *Washington* column in issue 11. The reference to "Agriculture—18-n;" means that an item on that subject will be found in the regular *Good Stories* section of issue 18 under index letter n.

Quotations in the section *May We* QUOTE *You On That?* are also numbered consecutively. In the index, a reference such as "Atomic Age—7-5Q;" refers to a quotation on that subject in the 7th issue, numbered five in the *May We* QUOTE . . . section. When the letter t follows the Q, as in the reference "Actors—8-3Q-t;" it indicates the special *Quote-ette* feature in issue 8. A complete list of department abbreviations appear below:
